-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The abstract of the disclosure is objected to because legal phraseologies, such as the words "said"/"means"; and phrases that can be implied, such as "the invention relates to ..." or "the invention also comprises ...", should be avoided. Correction is required. See MPEP § 608.01(b).
2. Claims 1-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In the instant claims, it is not clear as to whether if the guide means, the guide follower of the toy vehicle, the movable member, the fin, and the control system are intended to form parts of the instant claimed combination.

In line 2 of claim 1, the expression "said set of the type" is not clear as to what structures are intended to be covered under the instant claimed type.

It is noted that the words "consists of" and "consisting" are used throughout the instant claims. Applicant should aware of the limited scope of such words.

In claim 1, line 4, "... that comprises" is indefinite because it is not clear as to what structure is being referred to as "that".

In claim 1, line 5, it is not clear as to what structure is being referred to by the word "which".

In claim 1, line 11, it is not clear as to what structure is being referred to by the word "it".

In claim 1, lines 12-13, it is not clear as to what structure is being provided with contact end (22).

Further note that the last paragraph of claim 1, which characterizes the significance of the instant claimed invention, is narrative in form and replete with indefinite and functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device.

The instant claims appear to be resulted from a direct translation of a foreign document; wherein, the instant claimed structure is not clearly defined. The above noted problems are merely exemplary. Applicant is suggested to rewrite the instant claims in conforming to the U.S. practice.

3. Claims 1-25 would be favorably considered if rewritten or amended to overcome the rejection under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Applicant should further consider the structures of Metzner, Barnes, Bonanno, Caruso, Goodman, McRoskey, Cramer, Gill and Celesia.
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to MARK T. LE whose telephone number is (571)272-6682. The examiner can normally be reached on Mon-Fri, between 8:15-4:45 (Teleworking).
